

ATTENTION CAROLININAS GCSA MEMBERS

UPDATED October 2, 2024

*New drop off sites added below

**Hendersonville Pick Up locations will have water and canned goods later today with more pallets of water on the way.

In an effort to provide basic necessities to our members, their families, and their teams, the Carolininas GCSA is working to establish Pick Up and Drop Off points for supplies.

For people impacted in the areas of Hendersonville and Boone we have established two "Pick Up" locations where we are having water and canned goods (with pop tops) delivered.

We have volunteers ready to get these supplies from the drop off to pick up locations. We will be adding more locations for those in need as they become available. If you are in another location which can accept donations we can add drop off locations as well.

Members impacted personally: GCSAA has a disaster relief fund, and the Carolininas has received donations from a couple companies and local associations already and will be getting those funds to members, families, or crews who are suffering from any loss at their homes.

PICK UP LOCATIONS:
