sponsored by STI

1:00-2:00 PM BUSINESS MEETING TURF TECH OF THE YEAR

sponsored by TSP

NOVEMBER 18-20, MYRTLE BEACH

TUESDAY, NOVEMBER 19

2:00-4:00 PM GO FROM SHOP TO MAINTENANCE FACILITY WITH CTEM

Instructor: Kayla Kipp, CTEM, Nemaconin - Mystic Rock & Shepherd's Rock, Farmington, PA

The Certified Turf Equipment Manager Program through GCSSAA not only helps you but guides you every step of the way on how to take your facility and yourself to the next level. CTEM Kayla Kipp will walk you through some of the OSHA, NFPA and EPA regulations that are included in the CTEM attesting process. Before you know it, you will have created a safe, efficient workspace and a knowledge base that will help you now and in the future. As regulations and inspections become more prevalent in our daily operations, stay ahead of the curve by being proactive. Come with questions for your CTEM journey!

2:00 PM EETC/GCSAA TESTING AVAILABLE (Please bring your own laptop)

3:30-7:00 PM CAROLINAS GCSA TRADE SHOW Myrtle Beach Convention Center

WEDNESDAY, NOVEMBER 20

7:30-8:00 AM REGISTRATION Breakfast

8:00-10:00 AM CUTLINE IS KING

Instructor: Mike Rollins, Regional Manager, SIP Corporation, Tampa, FL

It doesn't matter what color your mower's or grinders are, "Cutline is King" is designed to help you find and control the cutline of your cutting units - provide uniformity that you never knew existed. This seminar provides evidence for prioritizing cutting units in today's high demand, high quality world of golf course maintenance. Mike will touch on basic cutting unit geometry, but will mostly cover detailed factors that affect quality of cut and after cut appearance.

10:00 AM-12:00 PM ADVANCED CUTTING UNIT GEOMETRY: EVERYTHING YOU DON'T KNOW ABOUT CUTTING UNITS

Instructor: Trent Manning, CTEM, Ansley Golf Club, Atlanta, GA

Attendees will learn how to measure behind center distance (where the front face of the bedknife is in relationship to the center line of the reel); how behind center distance affects aggression; and why the traditional bedknife angle/attitude does not effectively represent aggression. Attendees will learn how behind center distance changes over the life of the reel and how these changes affect aggression. These factors impact after cut appearance and are not common knowledge in the industry. Over the past year, the speakers have conducted and continue to undertake extensive research to collect real-world data on cutting unit geometry throughout the life of the reel.

12:00 PM EETC/GCSAA TESTING AVAILABLE (Please bring your own laptop)

11:30-2:30 PM CAROLINAS GCSA TRADE SHOW Myrtle Beach Convention Center

2024 TETAC Conference
